SUMMARY

Electrical Engineering graduate from Muhammadiyah University of Surakarta (GPA 3.30/4.00) with a solid foundation in microcontrollers, embedded systems, and the Internet of Things (IoT). Complemented by hands-on front-end web development experience building modern, responsive web applications and contributing to real collaborative software products. Continuously expanding technical proficiency in web and software development, with a strong interest in emerging technologies.

EDUCATION

Muhammadiyah University of Surakarta AUG 2021 - AUG 2025

Bachelor of Engineering, Electrical Engineering

- Cumulative GPA: 3.30/4.00
- Relevant coursework: Web and Database Programming, Robotics, Image Processing, Interface Engineering, Embedded Systems, Telecommunication Technology, Data Communication and Computer Networks, Microprocessor Basics, Programming Basics

PROJECT PORTFOLIO

Personal Portfolio Website 2026

Personal Project

- Designed and developed a fully responsive personal portfolio website using Next.js, React, Tailwind CSS, and Framer Motion, deployed on Vercel
- Live site: taufiqn.vercel.app

QR Code as Safe Opening Authentication with Raspberry Pi MAR 2025 - JUL 2025

Final Assignment / Personal Project

- Designed and implemented an embedded system mechanism using Raspberry Pi to control an actuator device based on QR Code validation from a camera and website
- Enhanced access security through a non-traditional, two-step authentication system, mitigating the risk of unauthorized entry

Obscura Finance – DeFi Application (Co-Builder) 2026 - PRESENT

Collaborative Software Project

- Co-developing a decentralized finance application built on the Arc blockchain, contributing to product design and front-end development within a distributed team
- Live site: obscurafinance.xyz

COMMUNITY & ORGANIZATION EXPERIENCE

BanTol DAO – Community Manager & Moderator 2026 - PRESENT

- Manage and moderate an active online community, driving engagement and maintaining a positive, well-organized environment across communication channels

Aerobo UMS – Member DEC 2023 - NOV 2024

- Coordinated internal organizational events
- Assisted members in building and testing aircraft and drones ahead of the KRTI competition

INTERSHIP & WORK EXPERIENCE

Variational – Marketing Affiliate 2025 - PRESENT

Partnership / Growth

- Promoted a derivatives trading platform through digital marketing, referral campaigns, and audience engagement across social media channels to drive user acquisition

PT. Sekar Bengawan – Intern, Electrical Engineering SEP 2024 - OCT 2024

- Performed maintenance on factory machinery
- Assisted with installing temperature and humidity sensors and integrating them with IoT systems

ADDITIONAL

- **Technical/Hard Skills:** Front-End Web Development (Next.js, React, Tailwind CSS), AI Engineering & AI Agent Development, Data Analytics, IoT & Embedded Systems, Digital Marketing, Smart Contract Development (Solidity, Move – foundational)
- **Soft Skills:** Project Management, Community Management, Critical Thinking, Problem Solving, Communication
- **Languages:** Indonesian (Native), English (TOEFL Score: 653)
- **Certifications & Training:** Data Analytics (RevoU); Digital Marketing (Dibimbing); UI/UX Design (Dibimbing); C++ Programming (Saylor.org); Docker & Kubernetes (Udemy); Java Masterclass (Udemy); Linux Network Basics (Udemy)
